PROJECTS

Dat Professional Survey Breakdown — *Power bi*

I created a Data Professional Survey Breakdown Dashboard using Microsoft Power BI. The project aimed to analyze and visualize survey responses from data professionals, providing insights into demographics, skills, job satisfaction, and industry trends.

Sales Report — *Power bi*

I undertook a project to create a Sales Performance Dashboard using Microsoft Power BI. The primary aim was to consolidate sales data from multiple sources into a single, interactive dashboard that provides valuable insights and supports data-driven decision-making.

Sales insights Data Analysis — *SQL and Power bi*

Conducted an in-depth data analysis project using a sales dataset to derive actionable insights and support business decision-making. This project was part of a data analytics course by Codebasics and involved various stages of data manipulation, visualization, and interpretation.
